Sir:

Applicants submit herewith patents, publications or other information which they are aware, which they believe may be material to the patentability of this application and in respect of which there may be a duty to disclose in accordance with 37 C.F.R. § 1.56.

Pursuant to 37 C.F.R. § 1.97(h), the filing of this information disclosure statement shall not be construed to be an admission that the information cited in the statement is, or is considered to be, "material" as defined in § 1.56(b).

While this Information Disclosure Statement may be "material" pursuant to 37 CFR § 1.56, it is not intended to constitute an admission that any patent, publication or other information referred to herein is "prior art" for this invention unless specifically designated as such.

In accordance with 37 C.F.R. § 1.97(g) the filing of this information disclosure statement shall not be construed to mean that a search has been made or that no other "material" information as defined in 37 C.F.R. § 1.56 exists.

The attached form, PTO/SB/08a, provides a listing of patents, publications, or other information as required by 37 CFR §1.98(a)(1).

The following item of information contained in this Information Disclosure Statement was cited in a communication from a foreign patent office in a counterpart foreign application: U.S. Published Patent Application No. 2002/0126846 (Multerer et al.). The relevance of the other patents, publications or other information listed on the Information Disclosure Statement is apparent from their disclosure.
